

## **STAFF DRINKS POLICY**

**To ensure we promote good manners and show good example to the children, staff and children should have snack and "hot drink time" together in the eating area of the Nursery only and not on the carpeted areas.**

**If the time is appropriate, e.g. when the babies are asleep, it is fine to make a hot drink, again drinking it in the eating areas.**

**Water can be drunk throughout the day but fizzy drinks, milk shakes etc. should be drunk in your lunch break only and not to be taken back into the rooms after lunch.**

**After lunch break, do not take any drinks into your room if not drunk and finished during your lunch break.**
